

Grade Estimates

Please Note: These grades were estimated by taking your current scores in Aplia, your score for the first and second midterms, and then applying them to the grading scheme in the syllabus. The average of the scores from your first and second midterms were used to substitute in for your score on the final exam. To that end, these grades reflect current standing in the course, based on your current score, and if you got the average of what you got on the first and second midterms in the final exam (provided of course that everyone else in the class did the same).
